

It is the intention of the King Springs Foundation to provide funding for items and supplies that enhance and enrich the classroom experience for ALL of our King Springs students. As such, it is our expectation that, where possible, the equipment and supplies purchased will be shared within the King Springs community (PTA, Teachers, Students, Administration, and Council).

Under this policy, the contact person, has the first right of choice on the use item. However, if it is not in use the item can be requested to be borrowed and then returned to the contact. The contact person has the right to determine the terms of the lending.

The following enduring equipment and supplies have been purchased.
